

Take the Challenge

I-Spy Bottles

 20 Minutes

Instructions:

1. Clean out and dry your bottle.
2. Collect about 10 -15 small items from around the house (that you won't need to use again) and then write down a list of the items on a piece of paper. Important: Don't lose this list!
3. **Ideas for small items:** beads, charms, buttons, marbles, a broken piece of crayon, paperclip, rubber band, lego piece, mini eraser, penny, toothpick. Be creative!
4. Start to fill your bottle with sand or rice and also add some of your small items as well. Alternate filling the bottle with sand or rice and the small items until the bottle is about $\frac{3}{4}$ of the way full. This will leave room for you to be able to shake the bottle and find the hidden item.
5. When all the items are in the bottle, glue on the cap securely, so you don't have sand or rice everywhere.
6. Use your written list of items as your I-SPY game list. Try to find everything on the list inside the bottle.
7. What's your record time for finding all the hidden items?

OVERVIEW

Create your very own 3D I-Spy game!

SUPPLIES NEEDED

- Empty plastic bottle (about 8oz-16oz size)
- Sand or raw rice
- Variety of small objects
- Liquid glue
- Paper
- Pen or pencil
