# Break The Ice!

 **20 Minutes**

## *Set Up:*

### **(For Parents)**

A day before you begin, have your parent or counselor fill a large plastic container with lots of party favors, and cover them with two inches of water. Then place the container in the freezer, and allow it to freeze until solid.

## *Instructions:*

1. Take the container with the ice block outside, and pop the ice block out of the container.
2. Using spoons or play tools, try to chip away and melt the ice.
3. Enjoy your treasures as you find them!

### **Think About It**

Learning something new takes hard work! The Torah is a treasure given to every single Jew, and with enough hard work and determination, anyone can become a Torah scholar. You just have to keep 'chipping away' at it, and you'll have access to all the special treasures found in the Torah!

## **OVERVIEW**

Sometimes learning can be challenging or tough, but hard work brings sweet results! Use a spoon to dig out treasures from a block of ice, and be rewarded with sweet prizes!

## **SUPPLIES NEEDED**

- Party Favors (*Bubbles, Slimy Hands, Slinkys, Bouncy Balls, Etc*)
- Metal spoons

**26**

**Week 6**  
Friday
