

Walking Rainbow

 15 Minutes

Instructions:

1. Line the cups up into a single row.
2. Fill cups 1, 3, 5, and 7 with water.

3. Add 10 drops of RED food coloring to cup 1 and 7.
4. Add 10 drops of YELLOW food coloring to cup 3.
5. Add 10 drops of BLUE food coloring to cup 5.

6. Fold the paper towels into strips.

7. Fold each strip in half.

8. Use the strips to create a bridge between the cups.

9. Watch your rainbow walk! It will take sometime, but be patient!

What's Happening?

The paper towel absorbs the liquid from the cup. Once the paper towels cannot hold any more water, gravity takes over and releases the accumulated water into the empty jars. The colors mix in the discard jars to make a rainbow.

OVERVIEW

Watch your colors walk to form a rainbow!

SUPPLIES NEEDED

- 7 Clear Cups
- 6 Paper Towels
- Food Coloring (Red, Yellow, Blue)
- Water
- Spoon
