DIY Judaica
Jewish Name Keychains

🕐 **15 Minutes**

OVERVIEW

One way to show our Jewish pride is by proudly using our Jewish names. In this activity we will be making Jewish name keychains. They are perfect for putting on your backpack, and letting everyone know that you are a proud Jew!

SUPPLIES NEEDED

- ☐ Keychain or key ring
- ☐ Thin Satin Ribbon or cord
- ☐ 8-16 Pony Beads
- ☐ Letter Beads to spell your Jewish name
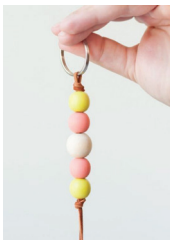

Setup: (for parents)

Before you begin, ask your parents how to spell your Jewish name.

Instructions:

1. Choose which beads you want to use, and set them up in a row. Use the letter beads for your name, and the big colorful beads to decorate with.

2. Loop your ribbon over the key chain, and keep the two ends together.

3. Tie the cord in a tight knot at the top, securing it firmly to the metal key ring so it has room to slide around a bit.

4. Start beading your beads on the doubled up ribbon.

5. Make a knot at the end and attach your awesome new keychain to your backpack!

💡 Think About It

Can you think of other times when you can use your Jewish name?
