

Take the Challenge

Minute to Win it

 10 Minutes

Instructions:

Nose Dive Challenge:

1. Set up this race on a table by placing the pom poms/cotton balls on one plate and an empty plate 12 inches away from it.
2. Open the jar of vaseline and place it next to the plate that's filled with the pom poms/cotton balls.
3. Stand in front of the table facing the bowls, with your hands behind your back.
4. Your task is to carry the pom poms/cotton balls on the tip of your nose from the full plate over to the empty plate. You can only transfer them by bending over and dipping your nose into the vaseline, sticking it into the plate full of pom poms/cotton balls to get one stuck on your nose and moving it to the empty plate to drop it off there.
5. You can re-dip your nose into the vaseline at any time, as often as needed, as you play.
6. To win the game you must get five cotton balls from the first bowl to the second in one minute or less.
