

Volcano Explosions

 15 Minutes

Instructions:

1. Best if done outdoors!
2. Place the cup into the pan or container. (set up two or three cups, so you can do it with more colors)
3. Fill the cup ½ way with water.

4. Add baking soda, paint and dish soap to the cup and stir.

5. Pour in vinegar and watch it explode!!

What's Happening?

When the baking soda and vinegar combine it creates a chemical reaction and makes an explosion.

OVERVIEW
