

Pet Rocks

 20 Minutes

Instructions:

1. Find a smooth rock to become the perfect pet! (If you don't have any rocks near your home, ask a parent or adult to join you on a walk around the neighborhood or trip to a local park to gather one.)
2. Take a "before" photo of the pre-decorated rock so you'll have a before and after pic of your pet rock!
3. Clean your rock and let it dry before decorating.
4. Use your imagination and give your rock some personality. It can be anything you want it to be! To get your creativity rolling, check out the pet rock ideas link.
5. Paint your rock with white paint as the primer, then paint the base color. Add details like eyes, mouth, teeth and hair. The sky's the limit!
6. Take an "after" photo of your pet rock and give it a name.
7. **Optional:** Make a house for your pet out of a shoebox, jar, plastic container or berry basket. Design it to be as beautiful and comfortable as possible for your pet rock.
