

Take the Challenge

Banana Meters

All Ages 🕒 20 Minutes

Instructions:

Have you ever wondered how many bananas tall objects are?

Your task is simple: predict and measure how tall an object is in bananas.

1. Look at each object on the printable banana-meter measuring sheet.
2. Predict how many banana-meters each one measures and write your guess in the empty box next to it.
3. Line up your banana with the objects listed and see how many banana-meters it measures up to. Mark the number of bananas each object measures in the banana graph next to it.

Were your banana-meter predictions accurate?

OVERVIEW

Predict and measure how tall different objects are in bananas-meters.

SUPPLIES NEEDED

- Banana
- Pen or pencil

ONLINE RESOURCES

- Printable banana-meter measuring sheet
