

Crazy-Haired Pen

 20 Minutes

Instructions:

1. Cut your fabric into 2 different sized strips.
 - About ½ inch wide strips for the base of the pen.

- About 12 inches long and 2 inches wide for the top of the pen.

2. Begin adding fabric to the base of the pen.
 - Using the ½ inch wide strips, add a dab of glue to the end of the pen and begin attaching your first piece of fabric.
 - Adding a little bit of glue at a time, wrap the fabric around the pen on an angle. Keep adding the glue and attaching the fabric until the pen is completely wrapped.

3. Make the "hair."
 - Cut fringes into the 12" x 2" fabric strip by cutting down about 1 ½ inches deep and snipping about every ¼ of an inch wide.

- Lay the fringed fabric flat on the table and starting at one end, add some glue and attach it to the top of the pen. Then continue adding glue to the fabric and rolling the pen as you go along.

4. Fluff up your fabric hair by shaking the pen or gently pulling the pieces apart. Use some glue to attach the googly eyes.
5. Let dry completely before using.

OVERVIEW

Create your own crazy haired pen!

SUPPLIES NEEDED

- Fabric
- Pen
- Liquid Glue
- Scissors
- Googly Eyes
